GLOSSARY.

Condition or Repair Method.	Description.
Cold Metal Repair	Paintless Dent Removal, dents are pushed or pulled out to achieve a repair without the need to repaint the panel.
Local Repaint	Repaint to part of a panel (not possible with some colours).
Excessive Damage	Damaged beyond point of repair.
Replace	The cost includes the average price of the part across the vehicle model range, removal of the part and any connecting parts etc, repaint (where required) and refitting.
Thatchams system	Thatcham is an industry recognised supplier of parts prices and repair times used by most major insurance companies.
Specialist Repair	Localised repair that is more cost effective than replacement or full repair. For example repairs to windscreen to save replacement. Normally performed by a specialist.
Refurbish	Similar to a Specialist Repair, where a repair that is more cost effective than replacement. For example repairs to alloy wheels to save replacement. Normally performed by a specialist.
Gouge	Deep scratch that will require some filling to the base material to effect a satisfactory repair, prior to repaint.
Polished Alloy Wheel	Repair to an alloy wheel which has a polished finish rather than a painted finish or flat finish. Similar to a chrome finish.
Poor previous repairs	A sub standard repair to panels, glass or trim.
