

THE MINI CLUBMAN FINAL EDITION.

SOPHISTICATION WITH AN EDGE.

It's been 54 years since the introduction of the first Mini Clubman by BLMC (British Leyland Motor Corporation), and since 2007, the Clubman has cemented its place amongst the MINI Portfolio – quickly becoming a fan favourite.

This year it's time for the very last edition and in order to give this cult classic the send off it thoroughly deserves, we'd like to introduce the MINI Clubman Final Edition.

The Final Edition comes with a loaded specification, together with some exclusive external and internal styling. They'll be three body colours to choose from – Enigmatic Black, Melting Silver and Nanuq White. Inside, the MINI Yours Leather in Dark Maroon / Sidewalk Anthracite, is complimented by Copper Counterline Accents.

This edition will be limited to 1969 units, with 100 coming to the UK market; making this a very exclusive model and sure to be a hit with Clubman enthusiasts.

Official fuel economy figures for the MINI Clubman Final Edition: Fuel consumption (combined): 35.9-38.2mpg (6.5-6.3l/100km). CO₂ emissions (combined): 148-145g/km. These figures were achieved using the WLTP test procedure. The figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

Effective from March 2023. Prices and technical data shown are those in effect at the time of publishing and may alter periodically subject to product changes. Published in April 2023.
