

MAINTAINED VEHICLE CONTRACTS.

WE TAKE CARE OF YOUR MINI, SO YOU CAN TAKE CARE OF YOUR BUSINESS.

When ordering a MINI through the Business Partnership Programme, you have the opportunity to include maintenance within your monthly rental.

We understand that not all companies have a Fleet Manager who can obtain tyre quotes, raise purchase orders and manage the maintenance budgets for their company cars. Therefore these tasks may fall on company managers or employees who have to manage these alongside their day-to-day responsibilities.

MINI Business Partnership

FIXED COST MAINTENANCE.

By choosing a maintained contract, you benefit from the convenience and reassurance of fixed cost maintenance. This allows you to have total control over your maintenance costs, budget with confidence, manage your company cash flow and rest assured that you will not face any unexpected bills.

Our maintenance team will work directly with your local MINI Centre to minimise the time your MINI is off the road, leaving you to get on with your business.

WHAT IS INCLUDED IN A MAINTAINED CONTRACT?

SERVICING AND REPAIRS.

All scheduled and unscheduled servicing and repairs are covered within a maintained contract. We only use main MINI Centres, ensuring the highest quality work and a premium customer experience.

TYRE REPLACEMENT AND PUNCTURES.

We operate a tyre policy within fair and reasonable guidelines covering all tyre replacements and punctures. Tyres can account for 40% of the cost of maintaining a vehicle, which can rise significantly with higher mileage users and vehicles with upgraded wheels.

BRAKE PADS AND DISCS.

Included are the replacement of brake pads and discs. Costs associated with brakes are often underestimated and can rise significantly with higher mileage users and vehicles with upgraded brake systems.

YEAR 4 COVER AND MOT.

MINI vehicles are covered by a comprehensive three-year warranty. For vehicle contracts over three years, a maintained contract covers repair and breakdown, MOT and associated repairs.

ENHANCED BREAKDOWN AND RECOVERY.

Maintained contracts include 24/7 cover across the UK and Europe. Cover includes roadside repair, recovery, onward travel and 48-hour relief vehicle or overnight accommodation (in certain circumstances).

WHO SHOULD TAKE OUT A MAINTAINED CONTRACT?

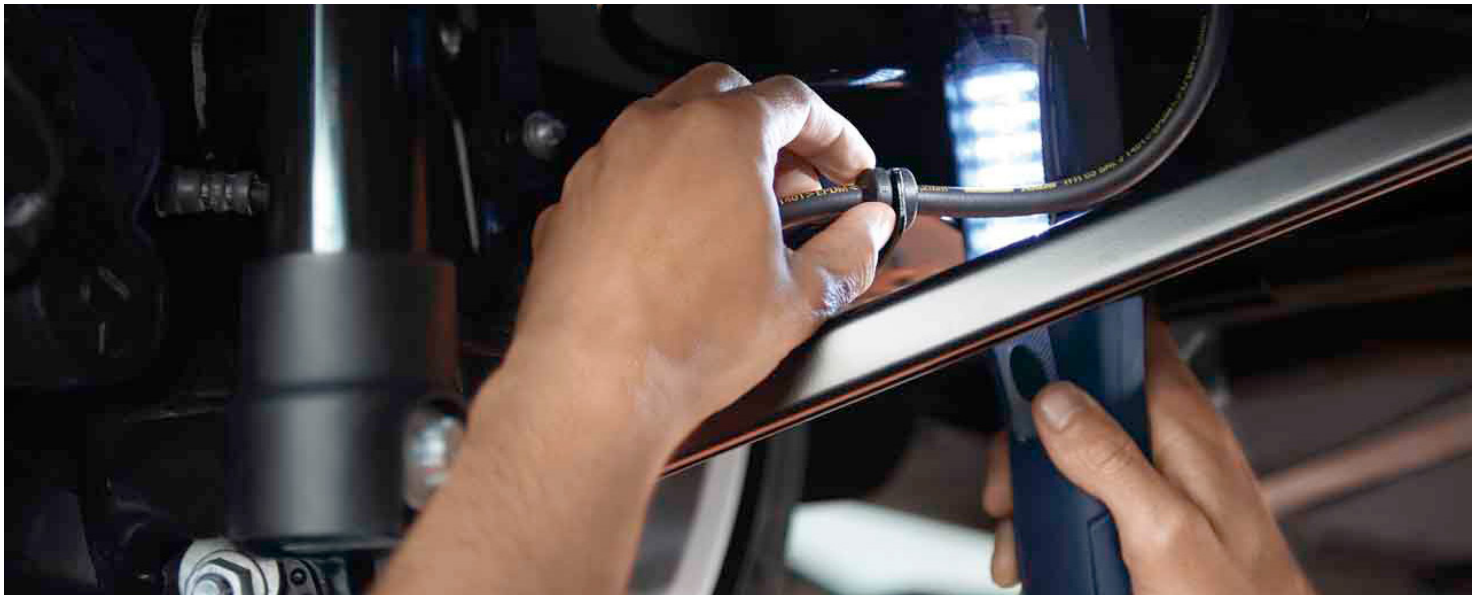

The value, convenience and reassurance of choosing a maintained contract makes it the right choice for all company car drivers and their employers.

The method by which the monthly maintenance rental is calculated ensures the amount you pay is tailored and appropriate for the vehicle and its intended use.

HOW MUCH DOES IT COST?

The monthly maintenance rental you will pay is calculated based on the:

- Model of the vehicle
- Estimated contract mileage
- Contract term

ARE YOU A LOW MILEAGE USER?

MINI TYRE COVER.

MINI Tyre Cover is designed specifically for low mileage users who may not require the full coverage offered by a fully maintained agreement.

For these drivers, MINI Tyre Cover is the smart way to manage the unexpected costs of replacing worn or punctured tyres. With our replacement policy, your MINI will be back on the road quickly. Even for low mileage users, tyres can make up over 40% of the cost of maintaining your MINI.

However, for total peace of mind, our comprehensive Maintained contract offers all drivers convenience and budget control and is tailored to all vehicles, contract lengths and annual mileages.

The following table details the two levels of maintenance coverage available with the MINI Business Partnership.

Please ask your MINI Centre for quotations on these options, the figures may surprise you.

	MINI Tyre Cover	Maintained
Scheduled Servicing (for five years or 50,000 miles)	○	●
MOT Cover	○	●
Worn and punctured tyre replacements	●	●
Brake pads and discs	○	●
Scheduled Servicing (4th year, contract miles)	○	●
Enhanced Breakdown Cover	○	●

To obtain a quotation tailored to your needs and desired vehicle, please request a Maintained Business Partnership quotation from your local MINI Centre by visiting www.minibusinespartnership.co.uk

The MINI Business Partnership Programme is a scheme designed specifically for fleets with fewer than 50 vehicles, operated via the MINI Retailer network. The MINI Business Partnership caters for customers with small fleets by offering dedicated Business Manager support, to help Fleet Managers through every stage of the decision-making process.
